Frankly and honestly . . . we have done two things. We want you to know about them . . .

ONE—We have searched throughout Southern California to find and to gather together here in Torrance a crew of technically trained, experienced and skilled mechanics. No blacksmiths for us . . . or you! Men to whom we are paying premium salaries . . . for we know, and you know, work done quickly and well is one-half the cost of a job done by a bungler!

TWO—We have installed at the cost of many thousands of dollars a great battery of the latest and most scientific instruments and devices for the testing, measuring and correcting of all known ills of a modern automobile.

SO THAT'S WHY . . . we confidently offer you the VERY BEST SERVICE at the LOWEST POSSIBLE PRICES on all motor work, body repair, wheel alignment, wheel balancing, frame alignment, brakes and refinishing . . . as well as modern lubrication, tires, parts and needed accessories.

*Come in and Say "Hello" . . . Look around. A  
Friendly Hand-Shaking Welcome Awaits You!*
